I called PTO on this file because PAIR says a Notice of Missing Requirements was mailed to us on April 2, 2001. We have never received it. Also, I wrote in March asking that the attorney docket number be corrected and that has not been accomplished. I initially called 703-305-3165 and then was transferred to the paralegal handling this file - Patricia Booker -- and reached her recorder which referred me back to the original number. I left word on Booker's recorder of my problem and asked her to call me.
